7.2.1. TITLE OF THE PRACTICE

EMPLOYABLE SKILLS (INFORMATIVE PORTO)

7.2.1.1 OBJECTIVES OF THE PRACTICE

Employability skills are the transferable competencies that individuals apply in their professional environment. To remain competitive and enhance their performance, employees must prioritize the development. At our college, we assess the key employability skills across different branches of engineering that are highly sought after in today's workforce.

- To present community events in a visually appealing, inclusive, and engaging way.
- To highlight the community's current understanding of an issue, along with their expectations and future visions, while offering opportunities for questions and dialogue.
- To raise awareness about the significance of events or issues, emphasizing their importance and impact on the community.

7.2.1.2 THE CONTEXT

Employability skills are vital soft skills that set you apart from other candidates with similar qualifications. While often not explicitly mentioned in job descriptions, these skills are crucial for securing a role that aligns with both company culture & Passion work.

Posters & Flyers are powerful interactive tools that blend images and text to communicate a message effectively. They use visuals — like illustrations, photographs, icons, logos, and videos—to convey information in a clear and engaging way.

7.2.1.3 THE PRACTICE

The goals are varied, but the primary objective is to create a meaningful connection between the message and its audience. Technical skills and software proficiency are essential for analyzing, researching, and fully understanding the core concept before creating the design.

Some basic skills that are desired in our campus are:
